

ANTONY GORMLEY

FACTS AND SYSTEMS [FATOS E SISTEMAS], WHITE CUBE, BRAZIL, 2012

9 May - 15 July 2012

White Cube's first 'Special Project' in Brazil, *FACTS AND SYSTEMS [FATOS E SISTEMAS]* was an exhibition of two new series of works. In one room, the artist presented dramatic bodyforms made from stacked, mild steel blocks that punctuated and articulated the gallery. In another room, he presented a group of linear sculptures made from 6mm steel rod that continue his investigation into architectural space.
